

Consultation Event Invite: Midlands & East on 13th Sept 2017 Creating a National Leadership Development Quality Framework for the NHS

What we are trying to achieve

Enabling the outcomes of the [Rose review](#) and national NHS leadership framework [Developing People, Improving Care](#), the National NHS Leadership Academy is seeking to develop a national NHS wide leadership development quality framework which:

- Assures the quality of all programmes, courses and other leadership development interventions provided for the entire NHS system,
- Assesses and demonstrate the added value to the NHS (as a whole, organisations, and our workforce) of investing in such leadership development interventions to ensure value for money, and
- Contributes to increasing the leadership capacity and capability within the NHS system.

This work has high profile nationally and the full backing of the Department of Health to progress at pace. The output of this proposed work may also mean new ways that we engage in leadership development; potentially both procured and internally delivered.

Stakeholder engagement: we need your input

We are running a series of national engagement events to provide you with the opportunity to shape this emerging conceptual work in real time. Your views are important as this may impact on how you are delivering leadership development in your organisation. We are now seeking to engage our NHS stakeholders who have a vested interest in this work (e.g. Executives, Senior leaders, HRDs, OD and Leadership leads etc.) to contribute to the conceptual development and refinement of the Leadership Development Quality Framework. We will also be sharing a survey out to engage wider NHS stakeholders in their views.

How to engage

The engagement, shaping and consultation event for your region will take place:

Region: Midlands and East

Date & Timing: Wednesday 13th September | 11am – 3pm

Venue: Northampton City Centre - [Park Inn by Radisson Northampton](#), Silver Street, NN1 2TA

To register your attendance please email Andrew.Spears@hee.nhs.uk with your name, organisation, job title, contact details and any dietary requirements by 8th September 2017

What happens after these events?

We will synthesize your views into refining the conceptual work around this agenda at the same time as exploring existing leadership development quality assurance models within wider sectors. This will inform the development of a prototype model that we will consult on later in the year.
